

Remarks to the State of Docklands

In regards to the Gubernatorial Elections — December 30, 2018

I am here today, writing a letter to all of you, in regards to the outgoing Gubernatorial Elections. The letter specifically talks about the importance of the election now that the activity of the state has arose again, but more importantly, the *iniquitous claims* by a current *gubernatorial candidate* in regards to my well being, which is clearly linked to *her campaign* — as it can be directly interpreted in such form that I shall be referring to within this document hereby beholds.

As I aforementioned a year ago, specifically on the day of November twenty of twenty-seventeen, I made it clear that I will be leaving the gubernatorial office — indirectly stating I will not be associating with the highest office of the government moving forward, due to controversy with Monaldo, at the time, who succeeded me, but mostly of the politics within the state and the people who shall hold such authority defined. I am going to repeat this again, and I cannot stress this enough, for the people of Docklands does not understand, they have used you, they have used you to gain higher. What the people does not understand is that our state has become to a point where people are using their authority to get rid of other people to reach higher in our society and make their choices that reflects on how our Government and the State as a whole works. That being said, I shall jump right into why this document is made at this time.

As the state has progressive lately, due to the developers are now doing what they should have done, which I still applause them for stepping up and making things run, I had to return to the fold of the State of Docklands. My intentions being here was if I shall hold a government position, it would mostly like be in the

judicial branch due to my competency on law — besides that, I was going to observe and see what exactly takes place here. The Gubernatorial Elections now has come, and there was a quite amount of individuals urging me to run for the gubernatorial office, including Mr. iKingofAllKings — even when I made it clear to them before, in the last year's document, I do not see myself doing such thing due to the same-old cycle when it comes to this state, nothing but enthralling remarks with such condemnation back and forth when the time comes.

Now, for the person aforementioned in the beginning of the document, who I now classified as Katherine, known as ii_Katy, is now an gubernatorial candidate in the outgoing election. Her service to the state was among a lot of things, such as Secretary of State and the Attorney General, which I thank her for. In regards to more of her relevancy, it is also based off her mental breakdown due to former developer MichaelSupport for his behaviour towards her that is been condemned by the whole state, including myself. His limits and what he wanted to do was going to make the state end up being dead once again. Besides from the point, I messaged her to see if she was okay and followed by a day or two, she randomly messaged me about her potential campaign. She indicated that she will like me to join her, going into details about as the Lieutenant Gubernatorial Candidate. I accepted, because why not. I will help her out her campaign and her gubernatorial office if she gets elected of course.

Now for the controversy, as you may know, I am the former Governor of the Docklands. I been here for many years, done many things, most or half or some have witnessed it. You can relate to the drama and the unprecedented things I may have done, but mostly back and forth talks about me regarding my intentions by the people have been questioned several times as some does not trust me. I spoke to Katherine, regarding that controversy and she indirectly stated not to worry about it. For the current Docklands National Guard under the leadership of Glorious_Unseen, I had/have play a role where I am the administrator due to my whereabouts there, past history in the state, and to basically interact with them and other members there. They were aware of

my running with ii_Katy, some of them were in a voice call addressing the matter to me. Some of them called her names, such as “bitch”, telling me to “run alone”, ask her to “switch positions”, “impeach her and become governor”, not to “trust her”. I clearly told them I was not going to do that, and some respected and some questioned what I was doing. I still stand with what I said, which is I am not going to do such thing towards her for my own benefit or to screw her. I know how this state is, so I make sure inform Katherine what took place before someone else try to stir it around and slander me as she should be aware what I am doing in the state as I am apart of her campaign as a running mate. After explaining to her, she told me not to listen to them, and we basically went to details about some of it and stop talking about it.

As the day or two go by, I was added into to a random group chat by Katherine, with Fmr. Governor Lyoxic, who served under one of my tenures as a lieutenant governor, who now became the new Lt. Gubernatorial Candidate afterwards which seems to be the purpose of the group chat. In the group chat, she basically said, based on my interpretation, Lyoxic would be the Chief Justice, as she no longer wants to keep the past Chief Justice, known as Jaden_NH. However, she moved on to saying people want Lyoxic and I to switch positions, making him the new Lt. Gubernatorial Candidate and making me the Chief Justice instead, and how it is not up for discussion. She says it in a way that can be prexpial to a person to interpret, but you can understand as you read it a few times. I clearly responded maturely and was not pleased due to me thinking she made this decision based on the people who dislike me as I stated in the beginning of this paragraph. I left the group chat, and afterwards I left all my servers on the third-party platform including Docklands due to my focus on schoolwork at the time.

Today, I returned to officiated Docklands Server and all my third-party purposes on the discord platform and when I return, I decided to search my name. I saw a comment by Katherine, and she said “Jakido had plans to throw me out when I won.” I took a screenshot, and I confronted her on the matter. She and I got into an argument, because what she said was “slandering” upon

my name, as what she said is *fabricated*. There is no truth whatsoever to what she said in the screenshot, and so it is clearly *debunked*. As I know how these things in the state goes, I am not surprised this happened but however it may explain a little bit of MichaelSupport's behaviour towards her, not too much as that is how his behaviour was in general but from his point of view, I can see why and it is how this community acts. She also talks about if I am going to threaten her to kill herself, basically a reference to what happened between Monaldo and I's controversy last year, that was disrespectful, immature, and unethical of me and I did apologize about it and I learned better, but for someone who had a mental breakdown, I do not know why would you suggest or bring up such thing that you may have been thinking yourself. It just wrong, and I fully condemn it. I also made sure, to contact Mr. Lyoxic, advising him to tell ii_Katy not to slander.

In conclusion, being removed from her running mate, is something I never really saw coming and her reasons for it probably based off this community so I do not blame her, plus it is her campaign. However, I will not tolerate slander or any kind of disrespect from her by her actions to lie upon my name and if that is the behaviour she is going to have if she is elected or as a candidate, then I clearly will not support her and I clearly am against her campaign and her associates that I am no longer associate with in such a unscrupulous campaign. I recommend not to vote to her, but that is your choice. I made the document to make sure you all are aware of this and you can make your judgment from there as I owe it to the state and myself.

I solemnly, sincerely and truly declare and affirm that this document is telling the truth, the whole truth and nothing but the truth to the full extent of my personal knowledge, and beliefs, under any ex post facto law, de facto law, and future laws within the State of Docklands before and after the creation of this document regarding perjury, slandering and defamation, incimptatory and exculpatory evidence via indictment, ex parte, writ of certiorari, court order, or any investigation or action based off this document as it is hereby executed.
