QUICK NOTES TAKING
FIVE PICTURES—BTT101

As stated by the requirements, I shall fulfill the explanation of my doing on the Five Pictures project. Well, for one, this is unique style done with combinations of gifs to represent my five things. As to the topics in its aspects and components which will be further explained in this document, the topics shall be defined as the following:

I: Money
II: Girls
III: Cars
IV: Food
V: iMessage

The top gif to the left, is a representation of a tattooed girl walking around with stacks of ==money== in her shoulders. This represents me because I love money and what it can do for me.

The top gif to the right, is a representation of a girl named Maggie Lindemann of doing a characteristic dancing move, known as "Twerking". This represents me because I like see dances and I also like ==girls.==

The bottom gif to the left, is a representation of a car, known as BMW i8 cursing around the city. This represents me because when I grow up, I will want to be driving so I am very interested in ==cars== as a form of transport.

The bottom gif to the right, is a representation of food, known as the famous Japanese-savory pancake "Okonomiyaki" being sprayed by a special dressing unidentified. This represents me

because I love ==food== and I always like trying unusual things.

The center gif, surrounded by the rest of four gifs, is a representation of a guy texting his girl on ==iMessage==. This represents me because I love using things that helps me communicate with my friends and the world globally.

Respectfully submitted,
